Traitements Très Haute Tension - Corona

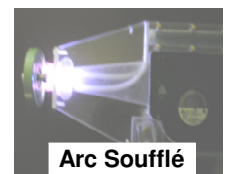

Very High Voltage Treatments

P6600

CORONA TREATMENT

- P6601 Features of corona installations: data sheets
- P6602 Corona treatment generators
- P6610 Corona treatment IGBT - low costs
- P6611 Corona treatment IGBT - All functions
- P6619 Special corona treatments : Blowing arc - Point effect electrode - Tunnel
- P6620 Corona station
- P6625 Corona station: Non conductive and conductive materials
- P6630 Corona surveyor
- P6631 Adhesive coefficient
- P664 Corona treatment checking : dynes inks and pens
- P665 Tubes generators parts
 - P6651 Electron tubes
 - P6652 Rectifiers - Capacitors
 - P6653 Grid resistors - Driver transistors
- Semiconductors generators parts
 - P6655 Fast thyristors - Power capacitors
 - P6655 IGBT - MOS - Snubbers
 - P6657 Variacs - THT Transformers
 - P6659 VHV cables - Silicon sheaths - VHV connectors
- P666 - Corona stations parts
 - P6661 Silicon sheaths - Rubber solution - Segments - Copper lubricant
 - P6662 Ceramic electrodes
 - Ceramic insulator - Electrode cover

Tests Dynes

16, avenue Armand Carrel
