**Applications :**

It is used in every workshop to put PVC accessories: eyelets, bridge, rivets or tyre va on awnings, tents, horse articles....

Easy to use and cheap. It is possible to repair van tarpaulin without taking off the tarpaulin.

**HF Generator :**

**Mechanical Specifications :**

- \* Welding Surface = 15 cm<sup>2</sup> ==> Dext = 75 mm
- \* Dimensions: 660 \* 660 \* 1100 mm
- \* Equiped with 4 Swivel wheels to move easily generator around tarpaulin
- \* Weight: 100 kg

**Electrical Specifications :**

- \* Supply: 230Vac 50Hz single phase - 15A - 3000VA
- \* Net supply Filters
- \* Anode Transfo with 4 grades of power, with rotactor switch
- \* Frequence = 27 MHz \* Triode = TB4
- \* Antiflash with disrupter of anode supply
- \* Switch HF ON/OFF for maintenance

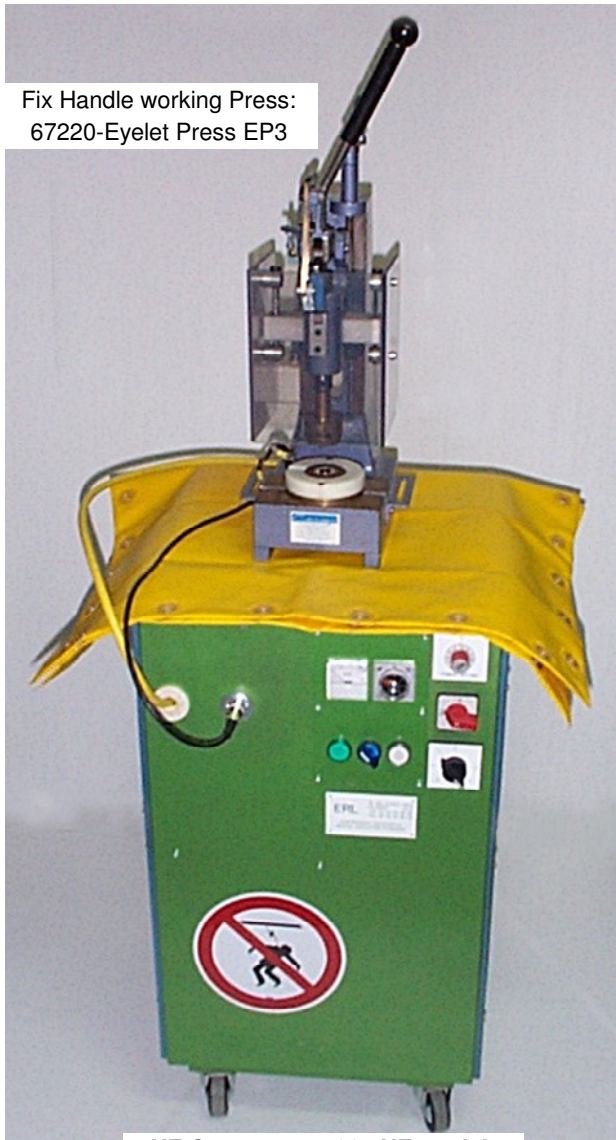

**Coaxial Cable :** from 1 up to 15 meters ; with command cable & pneumatic supply.

**Press and Clamp:**

- \* Mobile Handle Press with Spring
- \* Mobile Pneumatic Press
- \* Fix Handle Press
- \* Fix Pneumatic & Automatic Press

**New Concept for Eyelets Welding : Press is supplied with Remote Generator and with Coaxial Cable** of Lenght 10 meters: You move Press around Tarpaulin instead to move Tarpaulin under Press. 50% of economy on working.

# Eyelets Press: Mobile or Fix

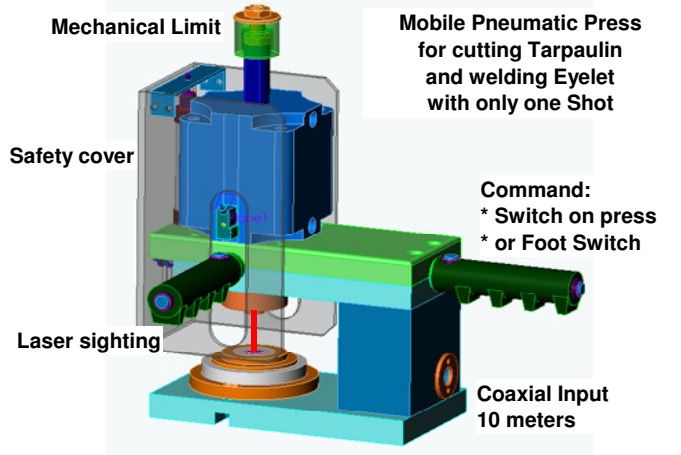

Fix Handle working Press:  
67220-Eyelet Press EP3

HF Generator 1500wHF model:  
Ref: 67220-Gene 3000 Eyelets M

## Mobile Press

Mobile Clamp with Spring for repairing on Trucks or Light Working  
Ref: 67220-pince Eyelets

**Price of Press includes pneumatic Commands:**  
Ref: 67220-pince Eyelets  
Câble = Coax + Pneu + Command  
Dcoax= 15 ; Dpneu=8 ; Length = 10 or 15 meters ;  
Ref: 67220-Cable /m
